

Patient Family Housing

Where to Stay

Craig Hospital has a wide variety of programs specifically designed to support families, including housing for outpatients and families of inpatients, either in our on-site family housing facility or in a nearby hotel.

First priority for the on-site housing suites is given to our outpatients. For families of newly injured rehabilitation inpatients who live more than 60 miles from Denver, we offer up to thirty days at no charge. If no on-site unit is available, we will provide housing in a nearby hotel. After thirty days, housing is available at a discounted rate on-site or at a nearby hotel depending on availability.

On-site housing units are equipped with kitchenettes, roll-in showers, hide-a-beds, and are spacious for wheelchairs.

Craig's Patient Family Housing is only steps away from Craig. Family members can participate in rehab and meals with patients.

Nearby Hotels

There are a few nearby hotels that offer a discount for family or visitors of Craig patients.
