CHI provided comparative data from the CHAS for the general population in Colorado and a subset identified as disabled. Rebecca Silvernale, Director of Operations was the CHI staff member who provided this consultation. Colorado Department of Public Health and Environment (CDPHE) collects health statistics in Colorado obtained from the Behavioral Risk Factor Surveillance System questionnaire (BRFSS). Data from the 2017 BRFSS survey were provided on specific questions for the general and disabled populations and compared with Craig survey responses. CDPHE staff provided updated BRFSS survey data. Jackie Gardner, Population Health Data Analyst is the CDPHE staff member who provided the data. A team of three independent public health professionals provided consultation on primary data collection and reviewed and made recommendations on the final CHNA Report. These three individuals have over 50 years of combined experience in public/population health, health care, data collection and analysis, and community health. The team members are Caila Aubé, MA; Eliza Lanman, MS; Amy Pulver, MBA, MA.

Schedule H, Part V, Section B, Line 11-Craig Hospital - Craig Hospital completed our most recent CHNA survey in September 2019. The CHNA identified two high priority health needs: access to care and social/emotional wellness and two medium priority needs: healthy eating/active living (HEAL) and independence. We are working to address the two high priority needs identified and do not plan to work on the two medium priority needs at this time. Access to Care - People with disabilities have higher rates of many chronic health conditions, including arthritis, asthma, cardiovascular, diabetes, high blood pressure, and high cholesterol when compared to those without a disability. Those living with physical disabilities often face enormous difficulty finding medical practices with wheelchair-accessible equipment or clinicians who are cognizant of their unique health care needs and risks which can lead to life-threatening infections. Further, individuals with disabilities often encounter professionals unprepared to identify and treat their primary and secondary conditions and any other health and wellness concerns as health care providers often focus on their disabling condition rather than on other health issues that might be of concern to the individual. Craig's aim is to reduce barriers to healthcare, promote wellness, and prevent injury and disease. We will do this by implementing the following strategies: increase our knowledge of gaps in preventive care for the BI/SCI community and identify and collaborate with community partners and programs already working to address the identified gaps; serve as a consultant to clinics in our community to make their environment, facilities, and services more accessible and inclusive; educate healthcare providers on how to best treat those living with BI/SCI. Social/Emotional Wellness - National data (National Health Interview Survey - NHIS) show that 14.4 percent of adults 18 years of age or older with disabilities experienced serious psychological distress; the Healthy People 2020 target is a 10 percent improvement to 13 percent. Social relationships play an important role in the mental health and wellbeing of people living with BI/SCI. The community served by Craig Hospital is particularly impacted by increased social isolation after their injury. Our goal is to reduce isolation, increase social-emotional support for our community, and support increased quality of life opportunities. We plan to achieve our goal by creating a pipeline for individuals living with BI/SCI to serve in positions of influence that can impact accessibility of physical, cultural, and institutional environments; develop and support internal and external programs that support engagement in meaningful activities with the BI/SCI community. Craig Hospital does not plan to address the two Medium Priority Health Needs: Healthy Eating/ Active Living and Independence. Focusing resources on the High Priority Health Needs will allow the Craig CHNA Committee to engage the entire Craig Staff in the implementation work, as well as permit the Team to build strong and targeted relationships with other community partners to achieve significant impact. In addition, because the issues identified in the CHNA process are interrelated, as noted above, some of the activities planned to be undertaken may also address some aspects of the Medium Priority Health Needs. Other organizations in the community include Healthy Eating/Active Living in their CHNAs and Community Health Improvement Plans and present opportunities for Craig Staff to collaborate with these organizations to provide Craig's unique perspective without taking on leadership of additional health needs.

- 5 Promotion of community health.** Provide any other information important to describing how the organization's hospital facilities or other health care facilities further its exempt purpose by promoting the health of the community (e.g., open medical staff, community board, use of surplus funds, etc.).
- 6 Affiliated health care system.** If the organization is part of an affiliated health care system, describe the respective roles of the organization and its affiliates in promoting the health of the communities served.

Schedule H, Part I, Line 7 - Costs were determined by using either actual costs or calculated costs based off a cost-to-charge ratio.

Schedule H, Part I, Line 7, Column f - A credit of \$1,905 was included in Total Expense but subtracted for purposes of calculating the percentage in Schedule H, Part I, Line 7, column (f).

Schedule H, Part III, Section A, Line 2 - The Hospital continued to follow the presentation and disclosure of patient service revenue, provision for bad debts and allowance for doubtful accounts as pronounced in the accounting standards updates 201107 and accounting standards codification topic 954. This requires organizations that do not have access to the collectability of a receivable prior to recognizing revenue to present their provision for bad debt related to patient service revenue as a deduction from revenue, net of any contractual allowances and discounts on their statement of operations. The adoption of this did not impact the financial statements as the Hospital does not recognize significant revenue without assessing a patient's ability to pay.

Schedule H, Part III, Section A, Line 3 - The Hospital does not consider any of its bad debt expense to be attributable to patients eligibility under the organization's financial assistance policy.

Schedule H, Part III, Section A, Line 4 - There is no footnote in the audited financial statements that describes bad debt expense. Please refer to page 16 and 17 of the audited Financial Statements that addresses Patients and Uninsured Payors.

Schedule H, Part III, Section B, Line 8 - The source of the data is the most recent filed Medicare Cost Report using the ratio of cost to charges method. The payment mechanism received for care provided to Medicare patients is not negotiated but set by federal regulations. The payment currently received for treatment is not sufficient to cover costs and although we don't recognize this shortfall as charity, we believe it should be included in the calculation of community benefit. All patients receive the appropriate level of care and services regardless of payment source.

Schedule H, Part III, Section C, Line 9a - There is not a specific written debt collection policy as those procedures are addressed in the Financial Assistance Policy.

Schedule H, Part IV - Line 6 Craig Hospital is not part of any affiliated health care system.

Schedule H, Part VI, Line 2 - In addition to conducting its CHNA every 3 years, the hospital assesses community needs through a variety of different programs. As a condition of federal funding, Craig Hospital's research department conducts ongoing longitudinal studies on the long-term effects and needs of persons with spinal cord injury and brain injury. Craig Hospital also operates a toll-free Nurse Advice Line and collects data on why former patients are calling for assistance. Craig Hospital collaborates with the Brain Injury Alliance of Colorado, Operation TBI Freedom, The Hangout, the Christopher & Dana Reeve Peer Network Program and other community organizations to assess and meet the long-term needs of citizens with disabilities. Craig also launched the Peer Mentor Soft Landing Program - a 3 year pilot program aimed at improving the success of patients as they are discharged home and gaining new insight on the challenges these patients

face.

Schedule H, Part VI, Line 3 - The Admissions Department identifies patients who have limited benefits and compare the benefits to the estimate length of stay. When there is a shortage of days allowed by insurance, the Admissions Director meets with the patient and/or family to determine alternative coverage. This conversation encompasses the patient's ability to pay for the care, potential eligibility for Federal and State programs and the Hospital's Charity Care policy. Upon admission, the case manager completes a thorough Psycho-Social Assessment of the patient/family specifically analyzing their financial situation. The case managers consider household income post-injury, family size, assets, current and future living expenses, and financial obligations including expected future care needs. The case managers, along with the patient/family, assess other potential resources/programs for which the patient may qualify. Resources and programs evaluated include but are not limited to Medicaid, Victim's Assistance, Liability and Liquidity, Accidental Death and Dismemberment, and the Hospital's Charity Care program. It appears as though the patient will qualify for State or Federal programs, the case manager will assist the patient/family in completing the applications, obtaining the required documentation, and advising them on how to position themselves to qualify. If patients do not meet the criteria for other State or Federal programs, the Financial Assistance Eligibility Discount Guideline is used to determine if the patient's bill will be discounted. If appropriate, the case manager will initiate and assist the patient/family in completing the Financial Assistance Application for the Charity Care Program. Applications may also be obtained on the Hospital's website, completed over the phone or by mail. If it is not clear that the patient/family will have a balance prior to discharge (copays, coinsurance, etc) the patient/family will receive information on the Charity Care Program which is noted on the monthly billing statements and the copy of application along with letter for pre-collection. At this time the patient can complete the application. All applications are reviewed by the A/R Manager, CFO and/or the Controller. When it is determined that the charity application is appropriate, it is communicated to the patient/family by the case manager or A/R Manager.

Schedule H, Part VI, Line 4 - As one of the most highly-rated rehabilitation hospital in the United States for spinal cord (SCI) and traumatic brain injuries (TBI), Craig treats patients from virtually every state including some from outside the US. Based in Englewood, Colorado, approximately 62% of all patients are from Colorado. The other top five states in order would include California, Wyoming, Kansas, New Mexico, and Montana. These six states account for approximately 75% of all patients treated during FY 2019. During FY 2019, Craig treated patients from 46 states. Since becoming a specialty hospital in 1956, Craig has treated over 35,000 patients with an SCI or TBI. With an average of 500 inpatients and 2000 outpatients a year, 65% are SCI patients and 32% BI patients. The average age of Craig's patients is 44, ranging from 15 to 89 years old and 74% of all patients are male coming from varied socio-economic backgrounds. 80% of Craig's patients are Caucasian and 13% are Hispanic/Latino. During FY 2019, 11% of inpatients were Medicaid recipients and 6% were on Medicare. Craig treats all levels of spinal cord injuries, traumatic brain injuries, stroke, aneurysm, encephalopathy, anoxia, and ventilator patients, as well as neuromuscular disorders like Transverse Myelitis, Guillain-Barre Syndrome or other conditions. The leading causes of injuries in our patient population are vehicular accidents (37%), falls (15%), medical complications (11%) and sports injuries (8%). Craig works very closely with all the hospitals in the Rocky Mountain Region and receives referrals from Hospitals throughout the US. Although many of the critical care hospitals have rehabilitation units, specialty hospitals like Craig have access to extraordinary expertise, resources and therapy programs that aren't often available at general rehabilitation centers. Craig has over 60 years of experience treating individuals with SCI and TBI and can offer patient and family support programs specifically designed for SCI and TBI patients. In addition the staff at Craig knows how to help families navigate complex SCI/TBI care at an emotionally challenging time.

Schedule H, Part VI, Line 5 - Craig Hospital's mission is to provide exemplary patient care, education and research to people with spinal cord (SCI) and traumatic brain injuries (TBI). The Board of Directors, consisting of 17 members of which 16 are independent, has ultimate authority in extending privileges only to professionally competent physicians, dentists, and podiatrists, licensed to practice in the State of Colorado. There are 205 physicians on the medical staff of Craig Hospital, each assigned to one of four separate medical staff categories. The medical staff of Craig Hospital is organized and operates under the guidance of the medical staff bylaws, medical staff rules and regulations, and medical staff policies and procedures. The organized medical staff is accounting to the governing body for the quality of care, treatment, and services provided to patients by the practitioners with privileges. The medical staff is responsible for establishing and maintaining patient care standards, credentialing, and delineation of clinical privileges. Additionally, there are approximately 86 allied health professionals, categorized as either independent or physician directed who function within one or more health related professions or occupations. The Hospital uses surplus funds to fund capital improvements, equipment for patient programs, and patient and staff education. In FY 2019, Craig reinvested over \$7 million back into the infrastructure of the Hospital for building improvements, equipment and information technology. Craig provides significant support to the families of patients including providing 30 days of free housing for families of inpatients who live further than 60 miles from the hospital. Craig also provides significant support to the community, supporting the Brain Injury Alliance of Colorado, conducting free annual outpatient clinics in Pueblo and Grand Junction and Casper, Wyoming. Our leaders serve on multiple boards for state agencies and organizations including the State of Colorado's TBI Mindsource Program, Division of Workers Compensation TBI Medical Treatment Guidelines, Colorado Brain Injury Professionals Network, the Hangout Network, and others. Craig financially supports many local, regional, and national organizations each year and collaborates on patient research and technology with several local colleges and universities. In FY 2019, Craig provided \$213,000 in funding to local and national community

partners. Craig is pioneering adaptive technology and cutting-edge treatment including operating the Peak Center At Craig Hospital, a state-of-the-art wellness and fitness program for inpatients, outpatients, and community members. In FY 2019, over 370 individuals utilized the Peak Center facilities and that number continues to grow. Other programs that Craig provides to the community include the RSVP Free Clinic that is held the first Sunday of each month offering rehabilitative care to the underinsured, adaptive adventure trips and activities for Craig graduates, community blood drives, and community liaisons who travel to assess and educate patients and providers. Craig also hosts rotations for RNs from 4 local schools, and offers and provides community outreach educational presentations to local hospitals and colleges on treatment of SCI and TBI, and has a Medical Residents Program for 2 medical school residents and 1 fellow. Craig provides long-term community support through multiple programs including telehealth through its Nurse Advice Line, free educational materials through the resource library on Craig's website, and social media including Facebook, Twitter, Linked In, YouTube, Instagram and a blog. Craig staff volunteer with numerous organizations like Camp Discover, Homebuilders Foundation, AMI Wellness Professional advisory committee, FVA Mountain States, and serve on the boards of hundreds community organizations including the Brain Injury Alliance of Colorado, National Sports Center for the Disabled, Academy of SCI Professionals, American Congress of Rehab Medicine, Phamaly Theatre Company, Cathy Scott Foundation, Center for Women's Health Research, Colorado Hospital Association, and more. During FY 2019, Craig provided financial assistance , community support and subsidized health services from government programs totaling \$10.5 million. Craig also gives back to the SCI and TBI communities through research that is changing the field of rehabilitative medicine. The Hospital's Research Department spent in excess of \$4.9 million in federal, state and foundation-sponsored grants for SCI and TBI rehabilitation research on approximately 46 research projects with a staff of 27 employees. In 2016, Craig assumed responsibility of managing Operation TBI Freedom (OTF), a military case management program located in Colorado Springs, Co. OTF provides support for veterans and active duty personnel with traumatic brain injuries through case management services including crisis management, medical and mental health referrals, employment/education assistance, psychosocial classes, and emergency assistance for severe needs. An estimated 400,000 U.S. service members have been diagnosed with TBI since 2000 of which over 8,000 have returned to Colorado. Of those, OTF has provided support to more than 3,000 service members and 8,000 family members. What makes Craig unique is the team approach towards treatment and working together to empower patients to achieve their highest possible level of independence and quality of life. Craig has been recognized for the past 30 consecutive years as a top 10 rehabilitation hospital by U.S. News and World Report and received the NDNQI award in 2009, 2012, 2013, 2014 and 2015 for the highest quality outcomes in nursing care in a rehabilitation facility. Craig also received its 3rd recognition for excellence in nursing by the American Nurses Credential Center (ANCC) Magnet Recognition Program in 2015. The 2015 recognition ensures Magnet designation until the year 2020. Craig was voted by employees as a "Top Workplace" by the Denver Post in 2012, 2013, 2014, 2015, 2016 and 2018.
